

Foundation formwork type ES Detail

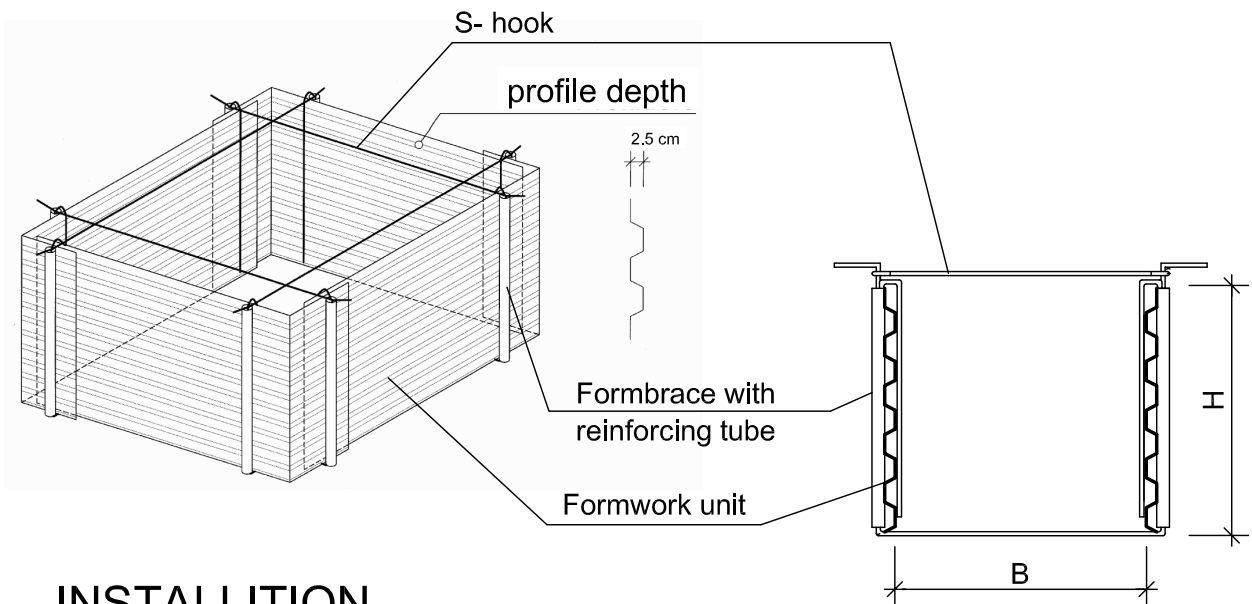

Self-supporting foundation formwork type ES as complete assembly system with trapezoidally profiled formwork units.

All parts are precision-made and pre-fabricated according to the layout plan. Due to the form ties and formbraces provided with the formwork units, the formwork is self-supporting up to a formwork height of $H = 100$ cm.

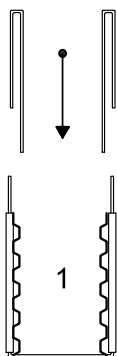

max. length of the formwork units $L = 310$ cm

formwork height $H = 30$ to 125 cm

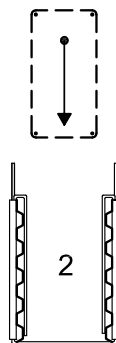

formwork width $B = 120$ to 500 cm (smaller widths = type FS)

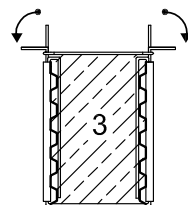

INSTALLITION

Assemble formwork units with lap joints and fix with formbraces

Insert reinforcement cage

Close formwork with S-hook fix by bending the round steel bar ends
Place concrete
