

## SMARTWASHER EVOLUTION WITH SW-33

We are excited to announce the launch of the **SmartWasher SW-33**, an advancement in our parts washer technology. This marks the first new parts washer machine introduced since CRC's acquisition of SmartWasher in 2015, representing a major step forward in our product line.

The SW-33 is designed to replace the SW-23, offering a visually similar appearance but with a crucial upgrade focused on **reduced downtime and enhanced reliability**. The key improvement is the integration of a **single control assembly**, which is the only replacement part.

### FEATURES / BENEFITS:

- Integrated Control module for maximum uptime.
- Compact footprint for maximum versatility.
- Dolly with footstep for easy relocation.
- Extra long hose with angled brush to reach hard to get at spaces.
- UV Stabilised sink and body.

### PRACTICAL INFORMATION:

- The first shipment of SW-33 parts washers will arrive at our EMEA headquarters in May.
- SW-33 will replace SW-23 before the end of the year.
- A dedicated communication regarding the SW-23 phase-out will be shared as stock levels decrease.
- Marketing material and websites are updated with the new machine
- SW-33 is **compatible with all Ozzy Juices and our Ozzymat**.

### NEW PRODUCTS:

ITEM NUMBER	PRODUCT NAME	SOCKET
1752925	SmartWasher SW-33 220v Mobile Parts Washer UK	UK plug
1756496	SmartWasher SW-33 220v Mobile Parts Washer EU	EU plug

### ACTION REQUIRED:

- Please introduce the SW-33 to customers.
- Product training and free trials should now be conducted using the SW-33.
- Familiarize yourself with the new features and benefits to effectively communicate them to our customers.

For any questions or comments, please do not hesitate to contact Product Management. We are confident that the SW-33 will be a valuable addition to our product line-up.
