

SPECIAL TERMS AND CONDITIONS

CABLE DRUMS

Generally

These special terms and conditions for Cable Drums are supplemental to, and form an integral part of, Ahsell's General Terms and Conditions of Sale applicable from time to time.

Invoicing of Swedish Cable Drums

High voltage cables, medium voltage cables (12–36 kV), and N1XV – N1XE cables (1 kV) are always invoiced separately, regardless of length to be delivered.

With regards to other cables and wires delivered in standard lengths, the stated net prices include the costs for packaging and for cable drums. The drums necessary for lengths shorter than standard lengths are invoiced in accordance with the price list below.

Repurchase of Swedish Cable Drums

- a) Swedish cable manufacturers repurchase Swedish cable drums with their business name. The repurchase price is based on the condition of the cable drum. Disposable drums and plywood drums are not repurchased.
- Drums free from defect (only bolt re-tightening required, change of affixed name): 100% buyback price
 - Only minor defects, e.g. an edge missing, a broken piece of heartwood, a bolt missing: 80% of buyback price
 - Several defects, e.g., two edges missing on the flanges, two to three broken pieces of heartwood, two bolts missing: 60% of buyback price

Somewhat larger defects can be tolerated on large cable drums.

Drums with the defects below are scrapped:

- Broken flanges
- Non-Swedish standard
- Painted, oily, or sticky
- Sharp or hard objects in the core
- Inner ring or spindle is damaged or deformed

A destruction fee is charged for scrapped drums:

K6–9: SEK 80 per drum	K10–14: SEK 180 per drum	K16–20: SEK 450 per drum
K22–24: SEK 580 per drum	K26–30: SEK 1080 per drum	

- b) Ahsell repurchases defect-free, Swedish cable drums for 80% of the buyback price. See the table below:

- c) Invoicing of foreign cable drums:

A6–9: SEK 80 per drum	A10–14: SEK 180 per drum	A16–20: SEK 450 per drum	A22–24: SEK 580 per drum

Instructions for return of cable drums

Notes on the bill of lading

The sender issues the bill of lading in the usual way. Reference for returns is provided where so requested.

The number of drums of each size is detailed on the bill of lading, e.g.,

8 units of K9, 7 units of K14. Weight is noted on the bill of lading in accordance with a separate weight and volume list. Either of the following principles must be used:

1. The actual weight of the drum. Applicable to entire wagonloads of rail freight.
2. The volumetric weight of the drum. As a rule, calculation of shipping costs for drums sent as groupage freight based on volume if they weigh less than the volume and weight limits prescribed by the shipping company. Currently, the number stated above applies when the volumetric weight limit is 200 kg/m³. The word "Volumetric weight" should be written in the volume column.

Address for return shipping

Groupage goods. The sender must be stated on every drum (identical to the sender on the bill of lading).

Wagonloads. Sender details do not need to be included on each drum for an entire wagonload from the same sender.

Recipient address is not required on returned drums.

Payment of shipping - road and rail.

Shipping is paid at the point of origin. For goods shipped as groupage freight, "shipping paid for road and rail freight" (*Sw. "fritt jämte hemforsling"*) must be written on the bill of lading under the payment section. "shipment for rail freight only" (*SW. "fritt"*) for an entire wagonload of rail freight.

Defects noted on returns

Defects in returned goods noted during returns management, for example incorrect number of items or damaged drums, are settled through notice and deduction upon re-payment. The value of the damaged drum is reduced by the cost of repairs.
